

## Wednesday Challenge Form

Group Members: Alyssa, Yatra

**Problem Statement:** Make a sketch-up of an “E”. Then your group will get another group’s sketch-up and you have to make the exact same “E”.

**Approach:** We thought of the measurements of how big we should make our E. Yatra did the sketch-up for I wanted to cut the E out. In conclusion, we made the exact same bridge as the sketch-up.

**Solution:** Copy exactly what the E will represent

**Lessons Learned:** Teamwork is key!
